Description

Hello,

I just upgraded to 2.3 and can't access any project's Settings tab anymore. I get this error:

ActionView::Template::Error (undefined method `inherit_members' for #<Project:0x7fa5a2f2a2e8>):
17: <% end >
18:
19: < if @project.safe_attribute? 'inherit_members' >
20: <p><= f.check_box :inherit_members ></p>
21: < end >

I confirmed that the following is in app/models/project.rb:

"safe_attributes 'inherit_members',
:if => lambda {|project, user| project.parent.nil? || project.parent.visible?(user)}"

Absolutely no expert on RoR, any ideas of where to look at? Thanks!
