Resolution:			
Description			
application	ave the ability to request membership	p of private projects, so that the a	dmin or manager only have to review the

and to decide whether he or she can join the project.

### History

#### #1 - 2008-08-13 15:46 - Thomas Lecavelier

- Target version deleted (0.8)

The target version field has to be set when it will **actually** part of the target release.

### #2 - 2008-08-13 15:48 - Thomas Lecavelier

This is incompatible with current meaning of private project, which are more "hidden" than private. You should requalifing your feature request to ask tree level of project:

- public
- hidden (which is the current "private")
- private (can see the name and description of project, can request membership, but can't see anything more since admin don't give rights)
