Redmine - Defect #13776

Wiki links that leads to specified paragraph in the same page

2013-04-16 00:24 - Anonymous

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Wiki		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Cant reproduce		**Affected version:**	2.2.3

Description
I have attempted to use the notation described in issue [#4422](#) many times and have been unsuccessful in getting it to work. Does it still function in Redmine 2.2.3? Are there any special caveats to the paragraph names? What if you are referencing a paragraph on the same wiki page? Thanks.
