

Redmine - Defect #13809

Issue Summary Screen Not Showing Tickets from Sub Projects

2013-04-18 18:16 - Peter Berkman

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	2.2.3
Resolution:	Duplicate		
Description with a project hierarchy like: Products >> ProductA >> ProductB where all the versions are declared at the "Products" level. when you click on the "Products" project's "Issues" tab and select "Summary" from the right column, no tickets are shown under "Tracker", "Priority", or "Version". I would expect all the tickets from the "Products" sub-projects to be included. This seems like the only summary view where they are not included. Can you change this so that they are included?
