<b>Target version:</b>	
<b>Description</b>	
It will be much easier to find redmine related tables if they were shown with prefixes like redm_*	

#### History

##### #1 - 2008-06-05 12:54 - Tommy Jensen

- Target version deleted (0.8)

Disagreed.

One should try to use a database for a single application for security reasons.

If not - update the migration scripts accordingly.

It also breaks with rails naming convention.

- Tommy :)

##### #2 - 2008-06-05 14:50 - Thomas Lecavelier

- Status changed from New to Closed

- Assignee deleted (Jean-Philippe Lang)

Damn agree with Tommy. And it's not a patch but a request feature. And as it would break anything existing, I'm closing.
