

Redmine - Feature #1391

Ability to force user to change password

2008-06-06 04:11 - Rick Daley

Status:	Closed	Start date:	2008-06-06

Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Accounts / authentication	Estimated time:	0.00 hour
Target version:	2.4.0		
Resolution:	Fixed		
Description			
<p>When I create an account for a new redMine user, I give it a default password and ask the user to change it when he or she first logs in. But I don't know if the users actually do that. I'd like to be able to configure redMine such that a new user is forced to create a password the first time he or she logs in. Furthermore, I'd like to limit the amount of time the user has to do this, so that after (say) a week, the account is automatically locked.</p>
