Category:		Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		
Description <p>Our fax machine is in constant warm up cycle. No command to stop works. Unable to receive any faxed orders. I have tried switching off and powering on several times. Same result. Last attempt 1 minute ago now results in a rapid repeating clicking sound and a whining motor noise. No clear LCD display.</p> <p>Qld John Granat.</p>
