Redmine - Defect #13937

How to solve this ?

2013-05-03 12:25 - mahendran bupathi

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Email notifications		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	1.3.3
Description				
Email delivery is not configured, and notifications are disabled. Configure your SMTP server in /etc/redmine/<instance>/email.yml and restart the application to enable them.				

History

#1 - 2013-05-05 23:06 - Mischa The Evil

- Status changed from New to Closed

- Priority changed from Urgent to Normal

- Resolution set to Invalid

This is not a defect but a support request. Closing as such.

The message you get says enough: configure it using the given file. See e.g. EmailConfiguration. But more importantly: why are you trying to configure Redmine 1.3.3 now? It is heavily outdated, not supported and probably vulnerable for security breaches. I'd suggest to install a supported version of Redmine.
