

Redmine - Feature #14125

Issue cherry picking

2013-05-22 16:52 - Zdravko Balorda

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:			
Resolution:	Fixed		
Description It would be nice to be able to save (temporary search) a selection of issues a user may have cherry picked in Issues tab. Unless you need one of bulk editing operations, your selection is lost at next click.

History

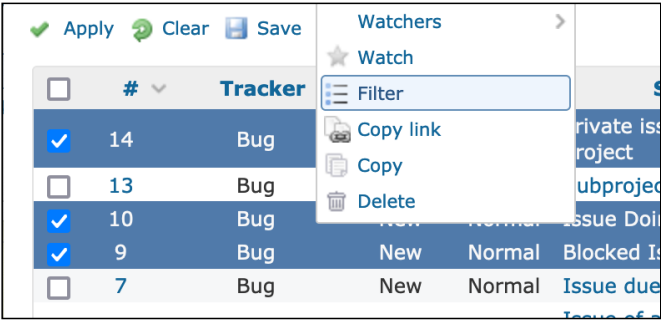

#1 - 2013-05-24 06:55 - Toshi MARUYAMA

- Category set to Issues

#2 - 2021-07-02 11:31 - Go MAEDA

- File context-menu-filter.png added
- Status changed from New to Closed
- Resolution set to Fixed

You can use "Filter" (#4806) or "Copy link" (#34932) in the context menu for this purpose. "Filter" makes an issues list that shows selected issues only. "Copy link" copy a URL that points to that issues list.
