Target version:				
Resolution:			**Affected version:**	

Description

When updating to the head revision we're getting a 500 server error after clicking the Issues tab in a project.

History

#1 - 2007-11-08 12:51 - Jean-Philippe Lang

I can't reproduce.
Can you make sure that you've restarted the app and cleared any
existing sessions. If you still get this error, please post the
corresponding log (I can't do much without it).
Thanks.

#2 - 2007-11-08 17:37 - Chris Brent

Restarting apache fixed it, thanks.
