Redmine - Defect #14225

locale string "error_session_expired" does not work

2013-06-06 09:02 - Terence Mill

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Translations		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	2.3.1

Description

If i login and let the session expire i get an error message label on login mask (see screener) which look like missing english translation. However i found the string in confige/locales/en.yml also in my native language i have after login.
