

Redmine - Defect #14274

Default Issue Value Workflow doesn't work as expected

2013-06-13 13:52 - Jorge S.

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues workflow	Estimated time:	0.00 hour
Target version:		Affected version:	2.3.0
Resolution:	Duplicate		
Description Hi, I have a New and Confirmed statuses in Redmine 2.3 My intention is to have New for newly opened tickets (obviously), and then users can set it to Confirmed. The problem is that at creation time, it is possible to set New or Confirmed. In my Workflow I have edited: Current Status----- New allowed Statuses New ----- New -- Confirmed (X) -- Rejected Confirmed ----- New -- Confirmed ----- Rejected Rejected ----- New -- Confirmed ----- Rejected For Non-Member users... I think the problem is that when displaying the New Issue form, it loads the page as having the issue with Status New, so it is showing Confirmed too. Any non-hack way to hide the Status field for new issues? Thanks!

History

#1 - 2021-07-03 10:59 - Go MAEDA

- Status changed from New to Closed
- Resolution set to Duplicate

In Redmine 3.2.0 or later, you can limit the statuses that can be set for a new issue. See [#5816](#) for details.

#2 - 2021-07-03 11:00 - Go MAEDA

- Is duplicate of Feature #5816: New issue initial status should be settable in workflow added
