Description

I have developed a plugin called "redmine_custom_field_hints" which seems that it may lend itself to the core as a nice feature.

While there is the option to specify a default value for custom options, there is no way to provide a static "hint" which disappears when the user focuses the input and reappears if the input is empty when blurred.

This module only applies to issue custom fields; however, it can easily be expanded to all other custom field types. It will only work with "string", "text", and "date" input types.

This feature "push" was requested by cforce

Revision 21459 - 2022-03-17 12:50 - Go MAEDA

Use a variable to reference a CustomField object (#14275).

Patch by Go MAEDA.

Revision 21460 - 2022-03-17 12:52 - Go MAEDA

Show a custom field description as a placeholder (#14275).

Patch by Go MAEDA.

History

#1 - 2013-06-14 00:25 - Terence Mill

+1 for core feature

#2 - 2013-09-26 13:32 - Terence Mill

Please take this feature into accoutn for next release, its a low hangig fruit and very usefull. Online helps/hints makes every system much more usable..

#3 - 2019-05-03 09:46 - Go MAEDA

- Related to Feature #15699: Description for custom fields added

#4 - 2020-05-06 16:56 - Go MAEDA

- Category changed from UI to Custom fields

#5 - 2021-05-13 17:32 - Go MAEDA

- File 14275.patch added

- File placeholder.png added

The attached patch adds a feature very similar to the plugin. Instead of

to show the custom field's description as a placeholder. Instead of "Hint Text" column added by the plugin, it uses the custom field's description as a placeholder text.

#6 - 2021-05-24 03:51 - Go MAEDA

- Target version set to Candidate for next major release

#7 - 2021-05-30 07:26 - Go MAEDA

- File 0001-Use-a-variable-to-reference-a-CustomField-object.patch added

- File 0002-Show-a-custom-field-description-as-a-placeholder.patch added

Split the patch into two parts:

- 0001-Use-a-variable-to-reference-a-CustomField-object.patch: code cleanup
- 0002-Show-a-custom-field-description-as-a-placeholder.patch: implements the feature

#8 - 2021-06-07 11:12 - Go MAEDA

- Target version changed from Candidate for next major release to 5.0.0

Setting the target version to 5.0.0.

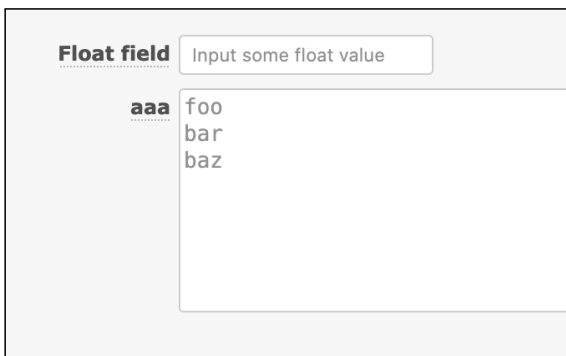

#9 - 2022-03-17 12:54 - Go MAEDA

- Status changed from New to Closed

- Assignee set to Go MAEDA

- Resolution set to Fixed

Committed the patches.

Now the description of a custom field is shown as a placeholder.
