

Redmine - Defect #14281

Parent issue autocomplete does not follow to the "Allow cross-project subtasks" setting

2013-06-14 09:18 - Anders Lisspers

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:	2.6.0	Affected version:	
Resolution:	Fixed		
Description			
<p>When editing an issue, you're able to get auto completion for the parent issue ID by typing a search term in the input box. However, as of r10587 this does not search the current project's issues but issues across all projects.</p> <p>If I understand correctly, the call to <code>{escape_javascript auto_complete_issues_path}</code> on line 46 of <code>app/views/issues/_attributes.html.erb</code> should (1) pass the current projects ID as <code>project_id</code> parameter and (2) pass the scope parameter depending on the "Allow cross-project issue relations" administration setting.</p> <p>A change of line 46 in <code>_attributes.html.erb</code> as follows has been tested and seems to be working in our environment at least:</p> <pre>-<%= javascript_tag "observeAutocompleteField('issue_parent_issue_id', '#{escape_javascript auto_c omplete_issues_path}')" %> +<%= javascript_tag "observeAutocompleteField('issue_parent_issue_id', '#{escape_javascript auto_c omplete_issues_path(:project_id => @issue.project, :scope => (Setting.cross_project_issue_relation s? ? 'all' : nil)}')'" %></pre> <p>\$ ruby script/about</p>

Revision 13400 - 2014-09-14 12:42 - Jean-Philippe Lang

Parent issue autocomplete does not follow to the "Allow cross-project subtasks" setting (#14281).

History

#1 - 2014-08-04 19:23 - Marius BĂLTEANU

This patch works also with Redmine version 2.5.1 and is a minor change. Can be catch in the next Redmine version?

#2 - 2014-09-02 13:48 - Toshi MARUYAMA

- Target version set to 2.6.0

#3 - 2014-09-14 12:43 - Jean-Philippe Lang

- Subject changed from Parent issue auto complete does not follow to the "Allow cross-project issue relations" administration setting to Parent issue autocomplete does not follow to the "Allow cross-project subtasks" setting
- Status changed from New to Closed
- Assignee set to Jean-Philippe Lang

- Resolution set to Fixed

Parent issue selection does not depend on Setting.cross_project_issue_relations but Setting.cross_project_subtasks introduced in [r10587](#). The fix is committed in [r13400](#), thanks for pointing this out.
