Description

On the New Issue page, after clicking Add on Search for watchers to add without selecting any user, generates the following error on the logs:

An ActionView::Template::Error occurred in watchers#append:

undefined method 'each' for nil:NilClass
app/views/watchers/append.js.erb:1:in `_app_views_watchers_append_js.erb__1816769395046035616_62007020'

actionpack (3.2.13) lib/action_view/renderer/abstract_renderer.rb:38:in `block in instrument'
(...)

A possible fix is to change WatchersController#append to render nothing when no user is selected:

```ruby
def append
  if params[:watcher].is_a?(Hash)
    user_ids = params[:watcher][:user_ids] || [params[:watcher][:user_id]]
    @users = User.active.find_all_by_id(user_ids)
  else
    render :nothing => true
  end
end
```
