

Redmine - Defect #14312

Field Permissions dropdown in Workflow is missing ' Required ' option.

2013-06-18 21:31 - Nick Gorbikoff

<b>Status:</b>	Closed	<b>Start date:</b>											
<b>Priority:</b>	Normal	<b>Due date:</b>											
<b>Assignee:</b>		<b>% Done:</b>	0%										
<b>Category:</b>	Issues workflow	<b>Estimated time:</b>	0.00 hour										
<b>Target version:</b>													
<b>Resolution:</b>	Invalid	<b>Affected version:</b>	2.3.1										
<b>Description</b>													
<p>Hello.</p> <p>I'm pretty sure it's a bug. This is a brand new installation of redmine with some plugins. Everything worked pretty much out of the box. (I'm using 1x elsewhere this is my first 2x Redmine installation). When I go into Workflow &gt; Field Permissions to require some standard fields ( I want users to select category, due date and assigned_to fields ) - the only option I get in a dropdown is 'read-only'. However according to everything I read on forums and issues list it should also have 'required' option. Any missing something or did I knot do something during install? (I'm pretty sure I followed installation guide to the letter). It's not critical, just really annoying to go into the system and clean up after users - make sure that all bugs have a person and due date assigned and are properly categorized. Some of my users are untrainable :-)</p> <p>Here are my Redmine details:</p> <p>Environment:</p> <table><tr><td>Redmine version</td><td>2.3.1.stable</td></tr><tr><td>Ruby version</td><td>2.0.0 (x86_64-linux) # Ruby 2.0.0p195 through rbenv on Debian 7</td></tr><tr><td>Rails version</td><td>3.2.13</td></tr><tr><td>Environment</td><td>production</td></tr><tr><td>Database adapter</td><td>PostgreSQL # 9.2</td></tr></table>				Redmine version	2.3.1.stable	Ruby version	2.0.0 (x86_64-linux) # Ruby 2.0.0p195 through rbenv on Debian 7	Rails version	3.2.13	Environment	production	Database adapter	PostgreSQL # 9.2
Redmine version	2.3.1.stable												
Ruby version	2.0.0 (x86_64-linux) # Ruby 2.0.0p195 through rbenv on Debian 7												
Rails version	3.2.13												
Environment	production												
Database adapter	PostgreSQL # 9.2
