<b>Target version:</b>	0.7.2		

#### Description

I just set up Redmine.pm for svn authentication and noticed a lot of log entries like this:

```
DBI::db=HASH->disconnect invalidates 1 active statement handle (either destroy statement handles or call finish on them before disconnecting) at /opt/code/redmine/extra/svn/Redmine.pm line 155.
```

Adding \$sth->finish() fixes this and authentication is still working correctly.

#### Associated revisions

##### Revision 1539 - 2008-06-15 11:43 - Jean-Philippe Lang

Close statement handler in Redmine.pm (#1433).

#### History

##### #1 - 2008-06-15 11:38 - Jean-Philippe Lang

- Status changed from New to Closed
- Target version set to 0.7.2

Applied in r1539. Thanks.
