

Redmine - Defect #1434

CVS: add support for modules names with spaces

2008-06-12 17:03 - Vladymyr Vladymyrov

Status:	Closed	Start date:	2008-06-12
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	SCM	Estimated time:	0.00 hour
Target version:	0.8	Affected version:	0.7.1
Resolution:	Fixed		
Description			
redmine fails to import changes from CVS module with space in the name: For example module: "module with spaces" - redmine generate command which makes cvs to treat the module name as several modules separated with spaces. Solution is to put module name into the quotes: Here is patch to fix this: file: lib/redmine/scm/adapters/cvs_adapter.rb			
<pre>68c68 < cmd << " #{path_with_project}" --- > cmd << ' "' + "#{path_with_project}" + "'" 113c113 < cmd << " #{path_with_project}" --- > cmd << ' "' + "#{path_with_project}" + "'"</pre>

CVS: add support for modules names with spaces (#1434).

History

#1 - 2008-06-12 17:15 - Vladymyr Vladymyrov

Here is full fix - for all cvs 8 calls the adapter does:

```
68c68
< cmd << " #{path_with_project}"
---
> cmd << ' "' + "#{path_with_project}" + "'"
113c113
< cmd << " #{path_with_project}"
---
> cmd << ' "' + "#{path_with_project}" + "'"
233c233
< cmd = "#{CVS_BIN} -d #{root_url} rdiff -u -r#{identifier_to} -r#{identifier_from} #{path_with_project}"
---
> cmd = "#{CVS_BIN} -d #{root_url} rdiff -u -r#{identifier_to} -r#{identifier_from} \"#{path_with_project}\"
248c248
< cmd = "#{CVS_BIN} -d #{root_url} co -r#{identifier} -p #{path_with_project}"
---
> cmd = "#{CVS_BIN} -d #{root_url} co -r#{identifier} -p \"#{path_with_project}\"
261c261
< cmd = "#{CVS_BIN} -d #{root_url} rannotate -r#{identifier} #{path_with_project}"
---
> cmd = "#{CVS_BIN} -d #{root_url} rannotate -r#{identifier} \"#{path_with_project}\"
```

#2 - 2008-06-14 13:38 - Jean-Philippe Lang

- *Status changed from New to Closed*
- *Target version changed from 0.8 to 0.7.2*
- *Resolution set to Fixed*

Fixed in [r1527](#) using the shell_quote method instead.
