Category:	Issues		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	2.3.1

Description

Hi Team

I've updated Redmine version from version 1.3.1 to 2.3.1 a week ago.I cannot find a function "move". It was visible in the previous version when the ticket was opened and it was a link in line along with "update", "watch", "delete" etc.

Is "move" somewhere hidden or is it out of this version? Please help me

- Status changed from Closed to Reopened

Hi

In my organisation normal user cannot have privilege to change the project,so How can it possible for a non admin user to give the move functionality ?

Thanks
Zam
