

Redmine - Feature #14385

Accept time in ":10" format

2013-07-02 14:02 - Jan Vrátný

Description When adding spent time, redmine accepts formats "0:30", "0.5" and ".5" (for half an hour). As a developer, I often use ".5" format, it would be cool, if redmine accepted also ":30" format. Adding times like 10,20,40,50 minutes would be easier. Thanks, Jan.

Why not use the **30m** notation described here : [RedmineTimeTracking](#) ?

Hi Jan,

please give some Feedback on this issue. In my opinion the 20m notation would be good enough to go doesn't it?
You can combine them with hours, like 3h20m.

#5 - 2013-11-18 20:39 - Jan Vrátný

Sorry for answering late. 20m format is definitely OK for me. I wasn't aware of it.
