

Redmine - Defect #144

Moving an issue to a sub-project

2007-11-13 01:34 - Paul Macdonnell

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:			
Description			
We're not able to move an issue from a project to one of it's sub-projects. We're using redmine 0.51, I've also verified we can't do this in the SVN build 902.			
Cheers, Paul			

History

#1 - 2007-11-14 17:00 - Jean-Philippe Lang

Admin users couldn't move issues unless they have the 'move issues' permission set explicitly on the target project.

Fix applied in [903](#), now admin users can move issues to any project.
If you're not admin, you need to have the 'move issues' permission on the target project (the subproject in your case).

#2 - 2007-11-14 17:43 - Paul Macdonnell

Thanks for that. That will be very helpful with maintaining our projects.

Cheers,
Paul
