History

#1 - 2015-07-28 18:01 - Go MAEDA

- Category changed from Themes to UI
- Target version set to 3.2.0

This small change improves look and feel.
Let's include it in 3.2.0.

#2 - 2015-10-04 14:33 - Jean-Philippe Lang

I'm not a big fan of icons everywhere. We already have icons for the main actions links (Edit, Watch...) and I'd prefer to keep export links as they are.

#3 - 2015-10-04 14:38 - Go MAEDA

- Target version deleted (3.2.0)

Thanks for feedback. I will withdraw this.

#6 - 2025-05-07 06:58 - Go MAEDA

- Status changed from New to Closed

In revision [r23743](#), the icon was removed from the Atom link under "Also available in:", which was the only link that had an icon. There are no plans to add icons to other links like PDF or CSV in the future.
