Description			
Redmine supports these links:			
<pre>project:r1500 project:source:some/path project:version:1.0</pre>			
but if the project has multiple repositories it doesn't seem to support this:			
<pre>project:source:svn1 some/path</pre>

I don't which version you're using but they are supported and there are tests for this:
[source:/tags/2.3.2/test/unit/helpers/application_helper_test.rb#l454](#)

Please reopen if needed.
