Category:	Email notifications	Estimated time:	0.00 hour
Target version:		Affected version:	2.3.1
Resolution:	Invalid		
Description			
Hi all!			
When I update redmine from 2.1.2 to 2.3.1, the Plugin Anonymous Watcher can not send email to anonymous. Something wrong here but i don't detect it. Please help me!			
Info:			
- Redmine 2.3.1			
- Ruby 1.9.3p194 (2012-04-20 revision 35410) [x86_64-linux]			
- Gem 1.8.24			

History

- Status changed from New to Closed
- Resolution set to Invalid

The [plugin page](#) doesn't state compatibility with 2.3.x...

Please contact the author, should this prove to be a redmine issue, please reopen.

I've sent a mail to Anton in September, but so far no reply if there is an update for 2.3.x in progress...

#3 - 2014-02-14 23:47 - Phil Franks

Anonymous Watchers is a useful plugin so in case anyone comes across this issue...

It's the changes made in Redmine 2.2 for the Private Notes feature (#1554) that break compatibility with this plugin.

I'm working on a fork of the plugin to restore compatibility with Redmine 2.3.x (and eventually 2.4.x). Seems to be working well so far, but I'm still testing :)

Code is available here: https://github.com/pheelay/redmine_anonymous_watchers
