### Description

Doing an upgrade under Windows from a working 2.1.2 install to 2.3.2.

The command 'bundle install --without test developement rmagick' is failing due to mySQL2 gem trying to install version 0.3.13.

It fails with the error 'Gem::Installer::ExtensionBuildError: ERROR: Failed to build gem native extension.'

This wasn't noticed when upgrading to 2.3.1 (for testing).

Changing the gemfile to specifically point to version "0.3.11" rather than "~> 0.3.11" solved the issue for me.

Seems that there is an issue with the gem '0.3.13' which is buggering the install.

http://www.redmine.org/boards/2/topics/38765

Ruby -v = 1.9.3p286
Redmine 2.1.2 -> 2.3.2

## History

#### #1 - 2013-07-26 11:28 - Toshi MARUYAMA

*- Category changed from Code cleanup/refactoring to Gems support*

#### #2 - 2013-10-10 13:41 - Anonymous

same for me trying an upgrade from 2.3.1 to 2.3.3

Environment:
Redmine version                2.3.1.stable
Ruby version                1.9.3 (x86_64-linux)
Rails version                3.2.13
Environment                production
Database adapter                Mysql2
Redmine plugins:
redmine_charts2                0.2.1

#### #3 - 2014-08-10 03:11 - Toshi MARUYAMA

*- Status changed from New to Closed*

It seems fixed.
http://www.redmine.org/boards/2/topics/38765?r=43229#message-43229

Latest version is 0.3.16.
