

Redmine - Defect #14533

"Close completed versions" button not working

2013-07-24 12:32 - Thomas Godard

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Roadmap	Estimated time:	0.00 hour
Target version:		Affected version:	2.3.1
Resolution:	Invalid		
Description			
Hello,			
I am actually finishing a migration from a project management software to redmine.			
By doing so, I created many old versions which are now closed.			
As you can see on image Version_List, many versions are still opened but finished such as :			
<ul style="list-style-type: none">• 5.1.4.1• 5.1.4.2• 5.1.4.3• 5.1.4.4			
as you can see on image Roadmap_Version.			
When I click on the "Settings/Versions/Close completed versions" button, it doesn't close any of my finished versions.			
I am actually running on Centos 6.4 with this environment :			
Environment:			
Redmine version	2.3.1.stable		
Ruby version	1.9.3 (x86_64-linux)		
Rails version	3.2.13		
Environment	production		
Database adapter	Mysql2		
Redmine plugins:			
no plugin installed			
Thank you.			

History

#1 - 2013-07-24 12:38 - Thomas Godard

I have just checked my production.log and no error is shown.

#2 - 2013-07-28 22:54 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Invalid

"Close completed versions" closes versions that are completed: due date reached and no open issues. Your versions don't have any due date, that's why they are left open.

#3 - 2013-07-29 09:19 - Thomas Godard

Thanks for the tip Jean-Philippe Lang, sorry for the inconvenient.
