

Redmine - Feature #1455

Create reports from Custom Fields

2008-06-15 08:50 - James Turnbull

Target version:			
Resolution:			
Description			
I'd like the capability of creating issue_reports from Custom Fields. I think this would only apply to List and Boolean types.

+1

im working on implement redmine in my organisation and we need ability to create reports by category and custom field of list type. for example: we have category "UI" and custom field "organisation" and we want to know how much "UI" issues we made for every organisation. and so on
