

Redmine - Feature #14602

Assignee list should be (optionally) ordered by probability

2013-08-02 10:49 - Tobias Olry

Status: New	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Issues	Estimated time: 0.00 hour
Target version:	
Resolution:	
Description	
<p>It would be great to have the option to enable the following: most of our projects have lots of "read only" users, which are assigned to the project, only to be able to see issues, not participate actively in them. As a consequence, the list of possible assignees ist very long an full of users, who normally aren't chosen.</p> <p>One idea would be to enhance the dropdown with optgroups, listing participating users first, e.g.:</p> <ul style="list-style-type: none">- participating users<ul style="list-style-type: none">- <me>- issue creator- other issue participant- other users<ul style="list-style-type: none">- user a- user b- user c <p>comments? other suggestions?</p> <p>thanks for a great software!</p> <p>Tobias</p>
