

## Redmine - Feature #1462

### Access control to trackers by user roles/profiles

2008-06-16 10:23 - Andrés Escudero Apesteguía

<b>Status:</b> New	<b>Start date:</b> 2008-06-16
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b> Issues permissions	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Resolution:</b>	
<b>Description</b>	
<p>This request works in conjunction with user's profile: there are roles inside a project, but Redmine should support global profile, more than one per user. So, each profile would get applications rights such as project creation, client creation, etc.</p> <p>Moreover, Redmine Administrator could define tracker's fields to be read-only, writable or whatever, based on user profile/role.</p>
