

Redmine - Defect #14627

undefined method `show_value' on issues list PDF export

2013-08-07 09:21 - remy H

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	PDF export	Estimated time:	0.00 hour
Target version:		Affected version:	2.3.2
Resolution:			
Description			
<p>Hello</p> <p>I had a problem when I tried to export to PDF my issues. Here is the trace :</p> <pre>NoMethodError (undefined method `show_value'): lib/redmine/export/pdf.rb:260:in `block in fetch_row_values' lib/redmine/export/pdf.rb:257:in `collect' lib/redmine/export/pdf.rb:257:in `fetch_row_values' lib/redmine/export/pdf.rb:302:in `block in calc_col_width' app/helpers/issues_helper.rb:29:in `block in issue_list' app/helpers/issues_helper.rb:25:in `each' app/helpers/issues_helper.rb:25:in `issue_list' lib/redmine/export/pdf.rb:300:in `calc_col_width' lib/redmine/export/pdf.rb:428:in `issues_to_pdf'</pre> <p>I found what was wrong :</p> <p><i>"include CustomFieldsHelper" is missing in /lib/export/pdf.rb to call "show_value" in "fetch_row_values" method.</i></p> <p>Maybe someone should fix this.</p>			

History

#1 - 2013-08-07 09:27 - remy H

By the way I forgot :

Environment:

Redmine version	2.3.2.stable
Ruby version	1.9.3-p448 (2013-06-27) [i386-mingw32]
Rails version	3.2.13
Environment	production
Database adapter	Mysql2

#2 - 2013-08-07 10:01 - Toshi MARUYAMA

I cannot reproduce.

Issue controller includes CustomFieldsHelper.

source:tags/2.3.2/app/controllers/issues_controller.rb#L38

#3 - 2013-08-07 10:13 - Toshi MARUYAMA

Issues helper uses show_value.

source:tags/2.3.2/app/helpers/issues_helper.rb#L160

It may be better including in issues helper than lib/redmine/export/pdf.rb.

#4 - 2013-08-07 10:22 - Toshi MARUYAMA

- Subject changed from Bug on PDF export to undefined method `show_value' on PDF export

#5 - 2013-08-07 10:35 - Toshi MARUYAMA

- Subject changed from undefined method `show_value' on PDF export to undefined method `show_value' on issues list PDF export
