<b>Description</b> <p>While investigating <a href="#">#14590</a> , I saw this section in the Administrator Guide: <a href="http://www.redmine.org/projects/redmine/wiki/RedmineSettings#Minimum-password-length">http://www.redmine.org/projects/redmine/wiki/RedmineSettings#Minimum-password-length</a></p> <p>This section is wrong. By default, the minimum password length is 8, not 4 as listed in the Administrator guide.</p> <p>This can be confirmed by looking at: <a href="http://svn.redmine.org/redmine/trunk/config/settings.yml">http://svn.redmine.org/redmine/trunk/config/settings.yml</a> where the default value of password_min_length is 8.</p> <p>Related to: <a href="#">#14567</a> <a href="#">#14590</a></p> <p>Related to: <a href="#">#14567</a> <a href="#">#14590</a></p>			

#### History

- Status changed from New to Closed
- Assignee set to Mischa The Evil
- Resolution set to Fixed

Indeed. The minimum length has been increased from 4 to 8 in [r10884](#) (which was first included in Redmine [2.2.0](#)). I've modified [RedmineSettings#Minimum-password-length](#) accordingly.  
Thanks for reporting this.

Btw: you should be able to edit the wiki yourself too.
