

Redmine - Defect #14709

Attachment filesize is displayed to 3 decimal places

2013-08-19 10:31 - Tobias Fischer

Status:	New	Start date:

Category:	Attachments	Estimated time:	0.00 hour
Target version:		Affected version:	2.3.2
Resolution:			
Description			
Attachment file sizes are displayed to 3 decimal places which is highly unusual. I'm using Redmine 2.3.2. This seemed to be introduced with one of the latest updates...			
I would suggest to display file sizes with 2 decimal places again.			

History

#1 - 2014-09-06 17:35 - Tobias Fischer

This behaviour was introduced with [r9782](#) (1 => 6 decimal places) and changed by [r9794](#) (6 => 3 decimal places) when redmine core team worked on issue [#11118](#)

I would suggest to display file sizes with 2 decimal places, as this seems more convenient to me.
