Blocked by Redmine - Feature #8253: Update CodeRay to 1.1 final			Closed

History

#1 - 2009-11-22 17:18 - Mischa The Evil

Kornelius Kalnbach (CodeRay project-manager) has planned the integration of a Lua-scanner for [CodeRay 1.0 RC1](#) based on the patch supplied here by Chris Peterson. See <http://redmine.rubychan.de/issues/39>.

Therefor this issue will eventually get obsoleted whenever the CodeRay-library in Redmine is updated to 1.0+.

#2 - 2010-10-19 16:41 - Pierre-Yves Gérardy

There's a typo on line 54:

```
'unpack' => 'unpack'
```

#3 - 2010-10-20 11:26 - Felix Schäfer

Pierre-Yves, please contact Kornelius for fixes to that, here's the wrong place for that :-)

#4 - 2010-10-20 15:46 - Kornelius Kalnbach

No, I'm not the right person to handle this. The Lua scanner is not part of the distribution. Since the ticket is still open, I don't think it's included in Redmine. So this thread is a bit like the Lua scanner project page ;)

#5 - 2011-04-30 00:18 - Mischa The Evil

- Category set to *Third-party libraries*

Changed issue-relations to reflect the [upstream roadmap](#):

-	related to Feature #4264 : Update CodeRay to 1.0 final
+	blocked by Feature #8253 : Update CodeRay to 1.1 final

and changed to new - more appropriate - category...

#6 - 2011-04-30 02:55 - Mischa The Evil

- Target version set to *Unplanned backlogs*

#7 - 2011-05-06 10:14 - Ebrahim Mohammadi

Implementing [#8120](#) as discussed would solve Lua syntax highlighting, since both Google Code Prettify and Sunlight support Lua.

#8 - 2013-10-26 10:57 - Jean-Philippe Lang

- Status changed from *New* to *Closed*

- Target version deleted (*Unplanned backlogs*)

Superseded by [#8253](#).
