

Redmine - Defect #14758

Can't override default locale with plugin

2013-08-23 09:01 - Ilya S

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Plugin API	Estimated time:	0.00 hour
Target version:		Affected version:	2.3.2
Resolution:	Duplicate		
<b>Description</b> trunk/config/locales/en.yml:  label_user_mail_option_all: "For any event on all my projects"  trunk/plugins/my_plugin_name/config/locales/en.yml:  label_user_mail_option_all: "For events on all my projects"  Restart Redmine and still see default locale translation. But if i comment this string in trunk/config/locales/en.yml, then appears my_plugin translation.  Ruby 2.0.0-p247, Redmine 2.3.2stable

Hi,

as you can see in [source:/trunk/lib/redmine/plugin.rb#L82](#) the plugin files are joined.

Do you see some exception in the log like these?  
[source:/trunk/lib/redmine/i18n.rb#L37](#)

#2 - 2013-08-23 10:22 - Ilya S

I'm not saying that plugins locales are not joins, i'm saying that plugin locales can't override default locales, may be they loads before default locales, i don't know.  
No, i'm not see any exceptions or warnings, nothing happens, plugin locales just don't work until i disable default strings.  
  
Sorry for my english.

#3 - 2013-08-24 07:13 - Go MAEDA

This issue is probably duplicated with [#12753](#).

#4 - 2013-09-03 03:02 - Toshi MARUYAMA

- Status changed from New to Closed
- Resolution set to Duplicate

Indeed.

#5 - 2013-09-03 03:02 - Toshi MARUYAMA

- Is duplicate of Patch #12753: Update config.i18n.load\_path for plugin-supplied locales added
