Target version:	2.5.0		

Description

Hi there,

I'm not sure if this is really better, but in my eyes this looks a little bit better.

I checked this line: source:/trunk/app/controllers/my_controller.rb#L142
Replace:

```
unless %w(top left right).detect {|f| (@blocks[f] ||= []).include?(k)}
    @block_options << [l("my.blocks.#{v}", :default => [v, v.to_s.humanize]), k.dasherize]
end
```

with:

```
unless @blocks.map{ |key, value| value}.flatten.include?(k)
    @block_options << [l("my.blocks.#{v}", :default => [v, v.to_s.humanize]), k.dasherize]
end
```

This type don't need a list of defined areas (left,right,top) and could handle even more areas.

Best regards,
Daniel

Hi Toshi,

maybe you have some time to take a look at this?

Best regards,
Daniel

#2 - 2014-01-11 14:30 - Jean-Philippe Lang

- Category changed from My page to Code cleanup/refactoring

- Status changed from New to Closed

- Assignee changed from Toshi MARUYAMA to Jean-Philippe Lang

- Target version set to 2.5.0

Patch committed in [r12658](), thanks. FYI I've replaced .map{ |key, value| value} with a simple .values.
