Description

When I trying to qoute pre-defined text (PRE button in menu) I see this text instead of qouted text in the Notes box:
 	
Oleg Islamov wrote:
 	
    test
 	
    [...]
 	
Insted of qouta I see brackets.

Hi,

here is a short test. It seems to work. Maybe recheck your notation?

```
  Test Test        Argh
Ex   am
 ple
```

This is the quote I see from your post Daniel Felix ... I don't see your pre text either ... only the [...]

Is it what you wanted to report Oleg Islamov ?

Then this is the expected behavior, pre is designed for storing quantities of preformatted text.

I don't know what you mean to quote but maybe the pre tag is not what you want to use, try simply adding a indent space before your paragraph?

```
This is an
indented paragraph.
