

Redmine - Defect #14840

Time logging shouldn't be possible for the future periods

Resolution:	Duplicate		
Description			
<p>Right how it is possible to log time on any day, which is I believe wrong - you either log the work time spent today or at some point at the past, but not future.</p> <p>So the basic fix I see here is to validate Spent time date and render an error if it's > current day</p>
