Hi,

If you create custom field as user, then it will not be displayed in all issues, if you need custom field in all project then make the type as text,list etc....

All users will not have access to all project and issues.

#2 - 2013-09-23 10:20 - Toshi MARUYAMA

- Status changed from New to Closed
- Resolution set to Invalid

[Here](#) is the answer.
