<b>Resolution:</b>			
<b>Description</b> I wonder if it possible to add an option in section "Issue tacking" (Administration->Roles and permissions): "Show the issues of other users". This option can be useful in environments where users should be able to see only issues reported by their own. A similar checkbox should be available in "Boards" section for board messages.			
<b>Related issues:</b> Is duplicate of Redmine - Feature #337: Private issues <b>Closed</b>
