I tried some Redmine modification for first time in my life seeing Ruby. When I added to end of self.available_columns = [...

```
QueryColumn.new(:updated_on, :sortable => "#{TimeEntry.table_name}.updated_on", :default_order => 'desc'),
```

located in app\models\time_entry_query.rb it is now working in REST API

Bump

Are you going to fix this in upcoming releases?

#3 - 2013-12-18 12:48 - Juozapis Juozapauskiksi

Please make me Christmas present and add it to upcoming release

Bump this still does not work in the newest redmine (3.4.6.stable)

Query redmineurl?time_entries.xml?&sort=updated_on

Result:
