Target version:		Affected version:	2.3.1
Resolution:	Invalid		
Description			
Hi,			
One user has the following filter for his project:			
<ul style="list-style-type: none">• Status: any• Tracker: is [Bug,Feature]• Created: >= 2013-01-01• Group results by: Priority			
When the user applies this filter, it generates about 700 rows (7 pages of 100 records) when he exports it gives him only 500 records in the CSV. I checked that the last ticket number in page 5 matches the last line in the CSV.			
Thanks for your help			
Philippe
