<b>Target version:</b>		<b>Affected version:</b>	0.7.2
<b>Resolution:</b>	Duplicate		
<b>Description</b>			
<p>Adding a link in the wiki to <a href="http://www.michael-noll.com/wiki/Running_Hadoop_On_Ubuntu_Linux_(Multi-Node_Cluster)">http://www.michael-noll.com/wiki/Running_Hadoop_On_Ubuntu_Linux_(Multi-Node_Cluster)</a>, creates a link to <a href="http://www.michael-noll.com/wiki/Running_Hadoop_On_Ubuntu_Linux_(Multi-Node_Cluster">http://www.michael-noll.com/wiki/Running_Hadoop_On_Ubuntu_Linux_(Multi-Node_Cluster</a>, with the ") following as plain text. This issue affects both the</p> <pre>"title":url</pre> <p>link format and the url format.</p> <p>Seems to be similar to <a href="#">#1225</a>. I believe the issue is from the LINK_RE regular expression in lib/redcloth.rb.</p> <p>I am running the 0.7-stable branch <a href="#">r1565</a>, with MySQL 5.0.51.</p>
