History

#1 - 2024-04-02 19:45 - Holger Just

- Status changed from New to Closed
- Resolution set to Cant reproduce

In general, users will only receive notifications for issues they are allowed to see from their browsers. If users can still see issues, even after they were removed from a project, this is expected if the project is set to public and is thus visible to all (logged-in) users.

In case you observe notifications to users wo definitely can't see the issue, please re-open this issue and add more details to allow us to reproduce this issue in a fresh Redmine installation.
