

Redmine - Defect #15204

Git commit message not formatted at all in <project>/repository/revisions/<SHA> view

2013-10-25 19:50 - T K

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	SCM	Estimated time:	0.00 hour
Target version:		Affected version:	2.3.3
Resolution:	Duplicate		
<b>Description</b> The commit message of a Git commit is not formatted at all when displaying a single commit in projects/<PROJECTID>/repository/revisions/<SHA>. Usually, a Git commit has a short title separated with an empty line from a detailed description. Though this gets correctly written to the rendered HTML, empty lines in an HTML document are not rendered.  The commit message  <pre>an awesome commit</pre> This commit finally fixes those annoying bugs and made this piece of software an awesome product!  Is displayed in a single line  an awesome commit This commit finally fixes those annoying bugs and made this piece of software an awesome product!  I would at least expect the empty line to be visible. In addition, it would be helpful when the commit title can be styled differently, e.g. bold.
