

Redmine - Feature #15212

Atom feed on project with subprojects should show in article title the name of the project

2013-10-28 11:54 - Miodrag Milic

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Feeds	Estimated time:	0.00 hour
Target version:	4.2.0		
Resolution:			
Description			
If you use <i>Overall activity</i> the name of the project is shown in title. If you use <i>projects activity</i> the name of the subproject isn't shown.			
This is inconsistent and should be changed.			

History

#1 - 2013-10-28 14:57 - Miodrag Milic

Among other things, this is needed because there is no precise filter for project activity.

For instance, I would like to see activities of all subprojects minus some specific ones. RSS clients usually have advanced filtering based on reg exp of title and other message parts so this could substitute this missing filter on activities (the checkboxes on the right are very limited).

#2 - 2020-04-22 07:05 - Mizuki ISHIKAWA

- File *diff.patch* added

This patch adds a subproject name to the Atom feed title.

Example:

- Bug #1 a parent project issue
- Bug #6 a subproject issue

Change before:

```
<entry>
  <title>Bug #1 (Assigned): Cannot print recipes</title>
  .....
</entry>
<entry>
  <title>Bug #6: Issue of a private subproject</title>
  .....
</entry>
```

Change after:

```
<entry>
  <title>Bug #1 (Assigned): Cannot print recipes</title>
  .....
```

```
</entry>
<entry>
  <title>Private child of eCookbook - Bug #6: Issue of a private subproject</title>
  .....
</entry>
```

#3 - 2020-04-22 08:15 - Go MAEDA

- Target version set to 4.2.0

Indeed. The patch looks good. Setting the target version to 4.2.0.
