Category:	REST API		**Estimated time:**	0.00 hour
Target version:	2.3.4			
Resolution:	Fixed		**Affected version:**	2.3.3

Description

When I requested an old version wiki-page using REST API with version, Redmine respond contents with wrong comments.

see below:

1. http://www.redmine.org/projects/redmine/wiki/Logo/24.json
2. http://www.redmine.org/projects/redmine/wiki/Logo/24

24.json should have "comments": "Adds license details" but it returns "Spam squashing"

I attached a patch for app/views/wiki/show.api.rsb with additional tests.
