

Redmine - Feature #15290

Define subproject nesting depth limit

2013-11-07 09:23 - Christoph Klesser

Description As of #594 , subproject nesting depth limit has been removed. Good idea in general, but for some organization it makes sense to define a depth limit - either by generally limiting the depth in the administration settings or by adding an option like "No subprojects allowed" in each project settings.

IMHO it would be an absolute no-go to generally limit the nesting depth of projects.

I also replied to your thread here: [Limit subproject nesting depth](#)
