

Redmine - Feature #1538

Adding "updates" information to CSV export

2008-06-27 13:20 - Anonymous

Status:	Closed	Start date:	2008-06-27
Priority:	Normal	Due date:	
Assignee:		% Done:	0%

Target version:			
Resolution:	Duplicate		
Description I'd like to be able to see the "updates" - the text of the updates in the CSV export. At present the updates are not included, only the description. Cheers!

More clarification.

I'd like to the the "notes" field created by updates in the CSV as well.

#2 - 2008-06-29 11:04 - Jean-Philippe Lang

I don't understand your request.

What is the "notes" field ? And which screen are you speaking about ?

#3 - 2008-06-29 23:03 - Anonymous

Hi Jean-Phi,

Say I create a ticket, then I update it (like what I am doing now).

The update text box is called "Notes" (between the fields "Assigned to" "Target version" and "Files").

I would like to see the content of this text box "Notes" when i do a CSV export. I have tried (0.7) and it does not seem to include it.

Have I describe the request better?

#4 - 2010-11-05 13:09 - Daniel Schuba

This would be a great Feature. But I think first the description should be exportet right, when there are breaks in the description only the text to the first break is exported

+1, it could be interesting to export updates and to be able to show the last update into the issues view

#7 - 2016-11-25 17:01 - Toshi MARUYAMA

- Category set to Issues list
