Description

In task for migrate projects from Trac v0.8.x to redmine, I get following error:

```
Migrating components.....
Migrating milestones.rake aborted!
undefined method `description' for #<TracMigrate::TracMilestone:0xb7026590>
```

For resolved this problem, I create a patch that fix this error.

```
class TracMilestone < ActiveRecord::Base
  set_table_name :milestone

  def due
    if read_attribute(:due) && read_attribute(:due) > 0
      Time.at(read_attribute(:due)).to_date
    else
      nil
    end
  end

  def description
    return read_attribute(:descr) if has_attribute?(:descr) # Only Trac v0.8.x
    read_attribute(:description)
  end
end
```

It's work.

Associated revisions

Revision 1597 - 2008-06-29 11:03 - Jean-Philippe Lang

Makes importer work with Trac 0.8.x (#1540).

History

#1 - 2008-06-29 11:02 - Jean-Philippe Lang

- Category changed from Projects to Importers
- Status changed from New to Closed

Fixed in [r1597](#). Thanks.
