<b>Description</b>			
In task for migrate projects from Trac v0.8.x to redmine, I get following error:			
Migrating components..... Migrating milestones.rake aborted! undefined method `description' for #<TracMigrate::TracMilestone:0xb7026590>			
For resolved this problem, I create a patch that fix this error.			
<pre>class TracMilestone &lt; ActiveRecord::Base   set_table_name :milestone    def due     if read_attribute(:due) &amp;&amp; read_attribute(:due) &gt; 0       Time.at(read_attribute(:due)).to_date     else       nil     end   end    def description     return read_attribute(:descr) if has_attribute?(:descr) # Only Trac v0.8.x     read_attribute(:description)   end end</pre>			
It's work.
